

FAASTeam presents:

# **NW Mountain Virtual Aviation Safety Week - March 27 2021 - Day 5 - Session 1**

Instructor and primary student experienced significant power loss at 300 feet over Vancouver WA off Pearson Field (KVUO) in April, 2019. With the help of dashcam video, CFI Philip Mandel will share lessons learned from the scariest two minutes of his life. He says he did more things wrong than right yet still managed to nurse the Beech Musketeer back to the field and land opposite direction without bending anything.

**Directions:** This Virtual Aviation Safety Event will be hosted using the Goto Webinar platform.

Goto Webinar registration link:

<https://register.gotowebinar.com/register/7878839054135240973>

Once registered, you will receive an email confirmation from the Goto Webinar system platform with joining the webinar information for each topic you have registered. Thank you for your participation.

To register for Wings Credit please click on the registration information link below.
